

## Health Care

### You'll find state-of-the-art healthcare in West Central Ohio.

Some smaller communities face deficiencies in healthcare, but this is not the case in Wapakoneta. With more than 20 family health providers, local residents are well served. Four major regional hospitals are also located within 20 minutes of Wapakoneta, three of which maintain satellite operations in our community. Interstate 75 and US 33 provide convenient access to all medical services.
