People Ready to Work

An abundant, skilled labor supply improves your productivity, quality and profit.

With a long, proud tradition of farming and manufacturing, the people of Wapakoneta and West Central Ohio have a strong work ethic. Our people enjoy what they do and take great pride in their work. Many of our companies employ several generations of the same family.

Wapakoneta's location at I-75 and US 33 puts it at the center of the 12-county, West Central Ohio region with a labor force of nearly 400,000 people. Interstate 75 and US 33 provide an easy commute to work from any area in the region. The West Central Ohio Industrial Center, with more than 700 acres of shovel ready sites, is located at the southwest corner of this major intersection.

Our tradition of hard work combined with the excellent educational opportunities in the region ensures a ready and able labor force for your company's future.
